Vision Care Benefits

This individual vision insurance plan can help you save money on eye exams, eyeglass lenses and frames, and

contacts. It also offers discounts on LASIK and cosmetic extras. Here are more of the plan's features:

- Low exam copayments
- Eyeglass lenses are covered 100 percent after materials copayment
- \$40 wholesale allowance for frames
- Medically necessary contact lenses are covered 100 percent after materials copayment
- \$115 allowance for elective contact lenses
- Discounts on LASIK/PRK and second pair of glasses
- One eye exam per year

Membership in the People's Benefit Alliance (PBA) is required at additional cost (your \$0.75 association fee covers

this) in order to be eligible for this plan. With your membership, you will receive discounts on health, travel, consumer,

and business-related services, such as:

- Fitness Programs- Puts benefits for healthier living within reach for you and your family
- Vitamin Discounts- Offers discounts on an extensive selection of vitamins
- Car Rental Discounts- Get great deals on car rentals

The association is a membership organization that provides educational information and discounts on goods and services to its members.

Keep in mind that any of our plans can be added to your medical plan and coverage is available for individuals and families. Plus, there is no underwriting, which means you will not be disqualified for pre-existing conditions.

It only takes a minute to sign up online. Once you're enrolled, you only pay \$10 copayment for your annual examination and can visit any eye doctor in the VCP Network.
